Mr. Joseph Hamburger,  
Bahnhofplatz 2,  
Frankfurt a M., Germany

Dear Sir:

Referring to the entry in your "Mitteilungen für Münzsammler" of the work by H. Buchenau, "Der Brakteatenfund von Gotha.", may I say that I should be very glad to have you communicate with the publishers and enter an order for a copy to be sent to this Library, together with their bill, as soon as it is published.

Very truly yours,

Secretary

NEW - YORK.

Gentlemen/

In receipt of your favor dated 21st. ult. I beg to send you enclosed the Greek coins from the Frankfurter Münzverkehr desired as far as yet in stock. I trust they will find your approval.

I should be very glad if you would let me know if I may send you a collection of Greek and Roman coins from my stock on approval for your and your members collection to choose from. In this case I would be thankful if you would give me directions as to what I may send you.

Awaiting the favor of your reply I remain, gentlemen

Very truly yours

15th September, 1928

Mr. Joseph Hamburger,  
Frankfurt/cm/Main,  
Germany

Dear Sir:

Your letter of September 3d together with the package of coins has been received. As is usually the case, however, with stock catalogues received from Europe, American collectors are at a disadvantage in that the more desirable specimens are sold before their orders can be received. That is true in this case with Nos. 21, 24, and 50. Furthermore, the Athens tetradrachmen which you describe as Archaic are not of the truly archaic type at all, one being after 490 and the others after 390 B.C. No. 38 is in such poor condition as to be undesirable. I am very sorry under the circumstances that it is necessary to return the entire lot to you, excepting No. 31, 14 Marks.

I note what you say about sending a consignment from your stock, and possibly we shall ask you to do that at a later date. At present our members have not returned from their summer vacations.

I do desire a well-preserved specimen of the Jewish shekel of the year Four, however, as well as an aureus of Augustus. If you have either of these and can send me casts of them, I should greatly appreciate your doing so. I should also like to know whether you have available a gold florin of Louis of Hungary.

Very truly yours,

Secretary

P.S. Remittance for 14 Marks plus postage will be sent you shortly.
